CELERIO

LIVE BIG EVERY MOMENT

For those who live each moment to the fullest, the Celerio is here to let you enjoy experiences nothing less than extraordinary. Its large and comfortable space in a compact body turns your everyday into grand moments and the abundant luggage space lets you take all you need to make the most of what you love doing. The Celerio is also big on style with a lively and sturdy design which makes it look equally attractive from every angle. Hop into the Celerio, because life is most exciting when lived large.

DESIGNED TO STIR UP YOUR EXCITEMENT

Designed to move your heart, the Celerio's vibrant and dynamic styling with a lively contour enthalls you wherever it goes. Adding a touch of boldness to its look are distinct front grille and headlamps. With the Celerio, your presence on the road will stand out.

HEIGHTENS YOUR EXPERIENCE FROM WITHIN

The interior of the Celerio brings your senses alive. There's energy in every aspect of its styling. The three-dimensional vents and meter cluster stand out and add to the overall lively interior design, heightening your mood to drive.

Storage

Whether it is for large or everyday items, the Celerio provides ample space for all your things. It has a luggage capacity of 295 liters*, and if you want to store even more, just fold the rear seats to create extra space. A variety of storage spaces inside keeps all your handy items within reach.

* This capacity is for vehicles with luggage shelf and is measured using the German Association of Automotive Industry (VDA) method. 313 liters for vehicles without luggage shelf.

New generation display audio

The new generation display audio is equipped to let you enjoy every drive to the fullest. It works with Apple CarPlay™ for your iPhone, as well as Android Auto™ compatible smartphone. The system lets you use apps to display navigation directions, enable voice recognition, make phone calls, access your favourite music on your smartphone and check vehicle information such as fuel consumption and vehicle alerts. No matter where you go, be a part of a connected world.

LIVE IT UP IN EVERY WAY

Wide cabin for all your friends and ample luggage space for a weekend getaway, there is enough room for all. Further, an air conditioner adds comfort and the new generation display audio connects to excitement. Comfortable, convenient and entertaining features transform everyday drives into fun filled moments.

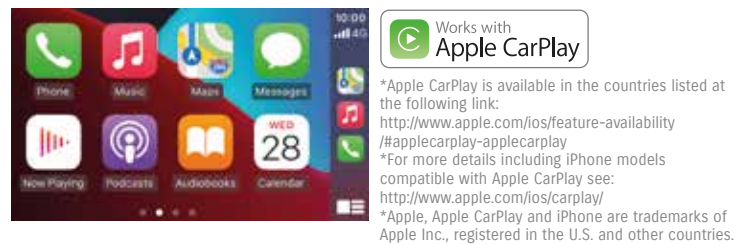

Storage utility

Convenience is assured for you, thanks to multiple storage spaces for all your different items.

Air conditioner and 12V accessory socket

Comfort is ensured with an easy to operate air conditioner while a 12V accessory socket lets you charge your devices.

Vehicle information

PERFORMANCE THAT LEAVES A BIG IMPRESSION

The Celerio always delivers a big performance, allowing you to live every moment to the fullest. Whether it's a long outing or a zip around the city, the car is equipped with a host of features that ensure every drive is a delightful experience.

1.0L DUALJET engine

The 1.0L DUALJET engine lets you get the best out of every drive. It delivers comprehensive advantages in thermal efficiency resulting from a better compression ratio, dual injection system and friction reduction, realising a high-level of balanced dynamic performance and fuel efficiency.

5-speed manual transmission

The 5-speed manual transmission offers an optimal gear ratio for the engine and drivetrain for the best balance of fuel efficiency and power performance.

Auto Gear Shift (AGS)

The AGS is an automated manual transmission featuring an Intelligent Shift Control Actuator that automatically operates the shift and clutch. This results in ease of driving and a direct drive feel for you, along with low fuel consumption.

Engine Auto Stop Start system (EASS)

EASS system automatically stops the engine when you stop the car, for example while you wait for the traffic lights to change. This prevents unnecessary fuel consumption and helps limit exhaust emissions and engine noise.

*Operation of Engine Auto Stop Start system requires certain conditions to be met.

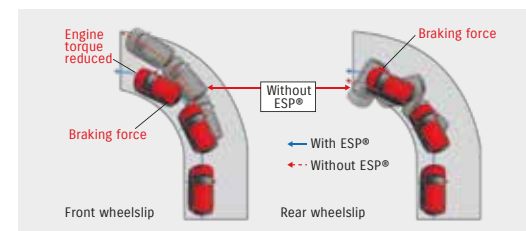

Light and rigid HEARTECT platform

The smoothly curving frame increases underbody stiffness that delivers excellent fundamental vehicle performance while also contributing to collision safety by efficiently dispersing energy.

MORE SAFETY FOR MORE FUN

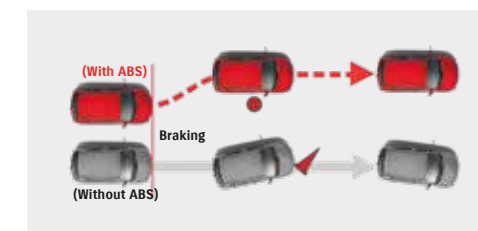

Enjoy peace-of-mind when you drive in the Celerio. It's equipped with features that help protect both occupants and pedestrians. So you can have non-stop fun knowing that you are in good hands.

ESP®

ESP® detects wheel slip, for instance when you turn the steering wheel sharply and/or the road is slippery, it automatically affects control over the engine torque and brakes to suppress the wheel slip and helps you stay in directional control.

*For details of equipment availability, please refer to the major equipment list. ESP is a registered trademark of Daimler AG.

ABS

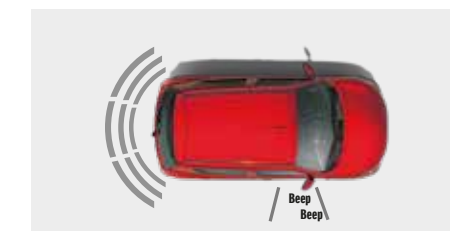

In an emergency braking situation, the Anti-lock Braking System (ABS) keeps tyres from locking up and helps you maintain steering ability.

Hill hold control

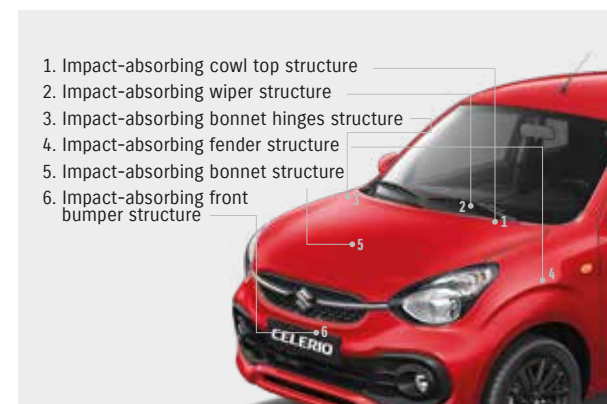

Hill hold control is designed to prevent the vehicle from rolling backwards when you restart the car on a slope. It engages the brakes for up to two seconds after you remove pressure from the brake pedal to depress the accelerator.

*For details of equipment availability, please refer to the major equipment list.

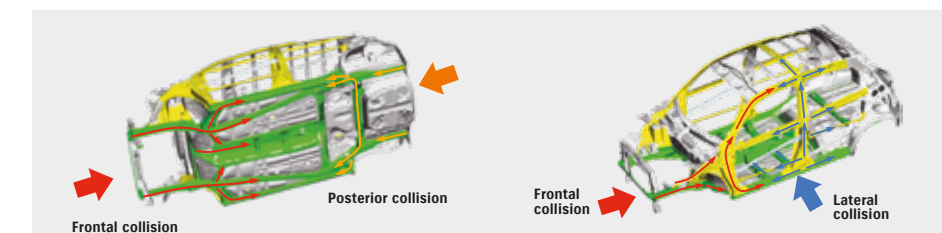

Rear parking sensors

Ultrasonic sensors in the rear bumper detect obstacles while the driver is reversing the car. Warning sounds help keep the driver informed of the distance to the obstacle.

Pedestrian injury mitigation body

The structure of the bonnet, front windscreen wiper area, front bumper and other parts absorb impact with the aim of mitigating head and leg injuries in the event of a collision with a pedestrian.

Total Effective Control Technology (TECT)

The car's body design centers on Suzuki's TECT concept, resulting in a structure that efficiently absorbs and disperses the energy in the event of a collision.
